

# We are going to the Busselton Jetty Underwater Observatory

I am going to visit the Underwater Observatory!

# When we arrive

I might see:

- Lots of people
- Water and boats
- Birds and fish

It's okay if it feels busy. I can hold someone's hand or take a break if I need to.

# At the Busselton Jetty

There are toilets at the

- Interpretive Centre
- Underwater Observatory

There are water fountains to refill my water bottle and seats that I can sit on and rest.

# Staff and Volunteers

Staff and volunteers are there to help and answer any questions I have.

They will be in uniform so I can identify them.

# Feeling Overwhelmed

If I feel tired, scared, or need a break, that's okay.

I can:

- Tell an adult
- Use headphones or a fidget toy
- Find a quiet spot to rest

# Getting our Tickets

We need to check in and get our tickets at the office. We will wait in line for our turn.

Staff will give us tickets that we need to keep with us while visiting the jetty.

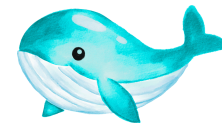

# Underwater Observatory

The Underwater Observatory is at the end of the Jetty.

We can go on a tour inside and look through big windows under the sea.

# Underwater Observatory

It might be a little dark,  
but I will be safe.

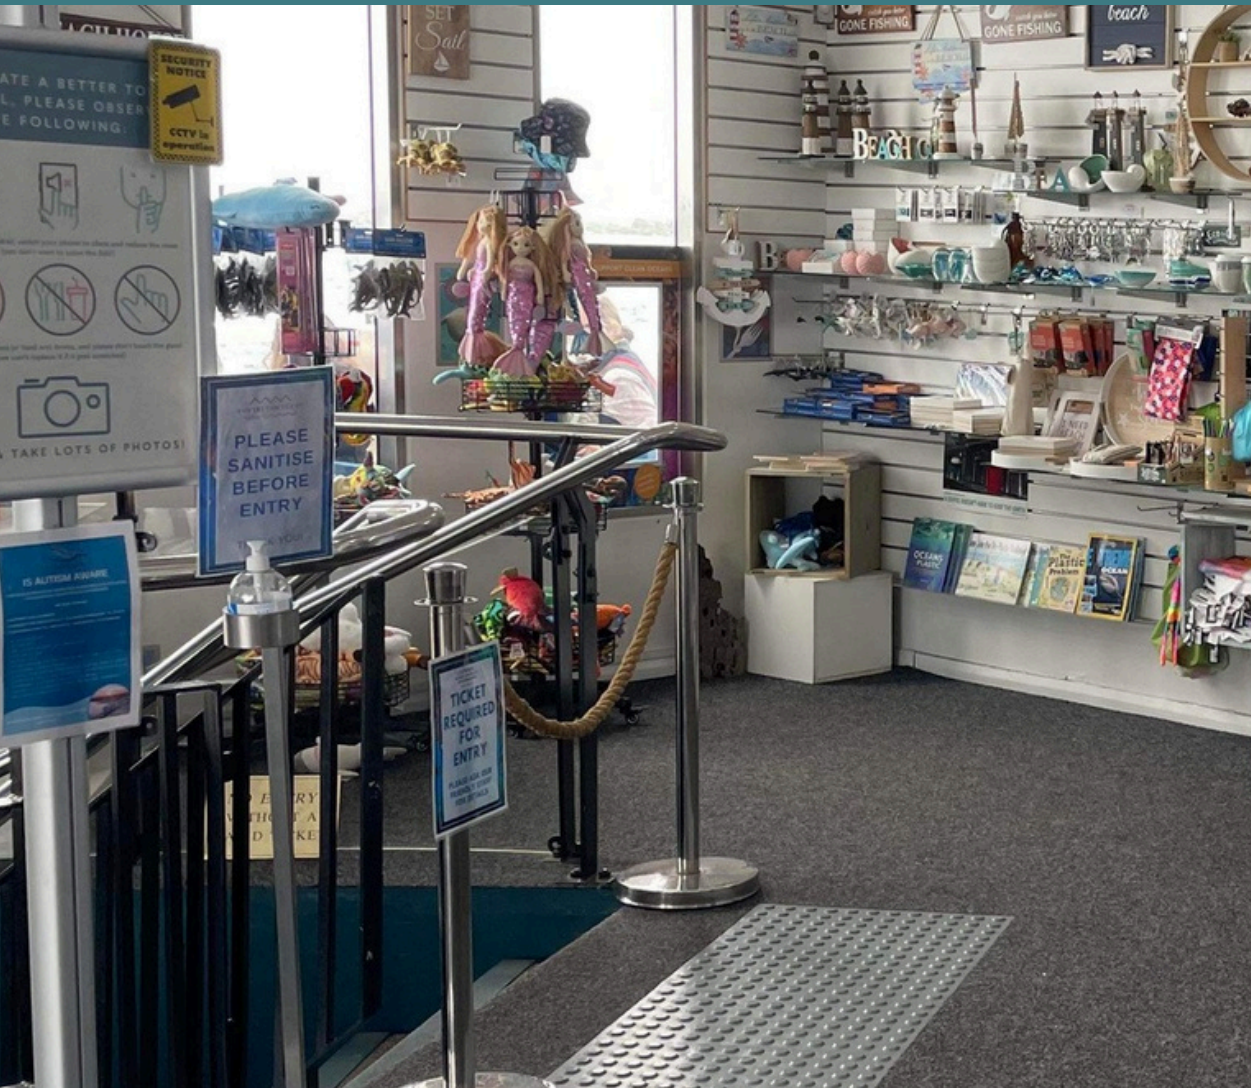

I will see coral, fish and  
other sea creatures.

# Underwater Observatory

We will be greeted by a tour guide who will tell us the rules.

There is a sign with rules that I can look at.

# Underwater Observatory

There are lots of stairs to walk down. I will stay with my group, walk carefully and hold onto the rails.

There is an elevator for people who cannot walk down stairs

# Underwater Observatory

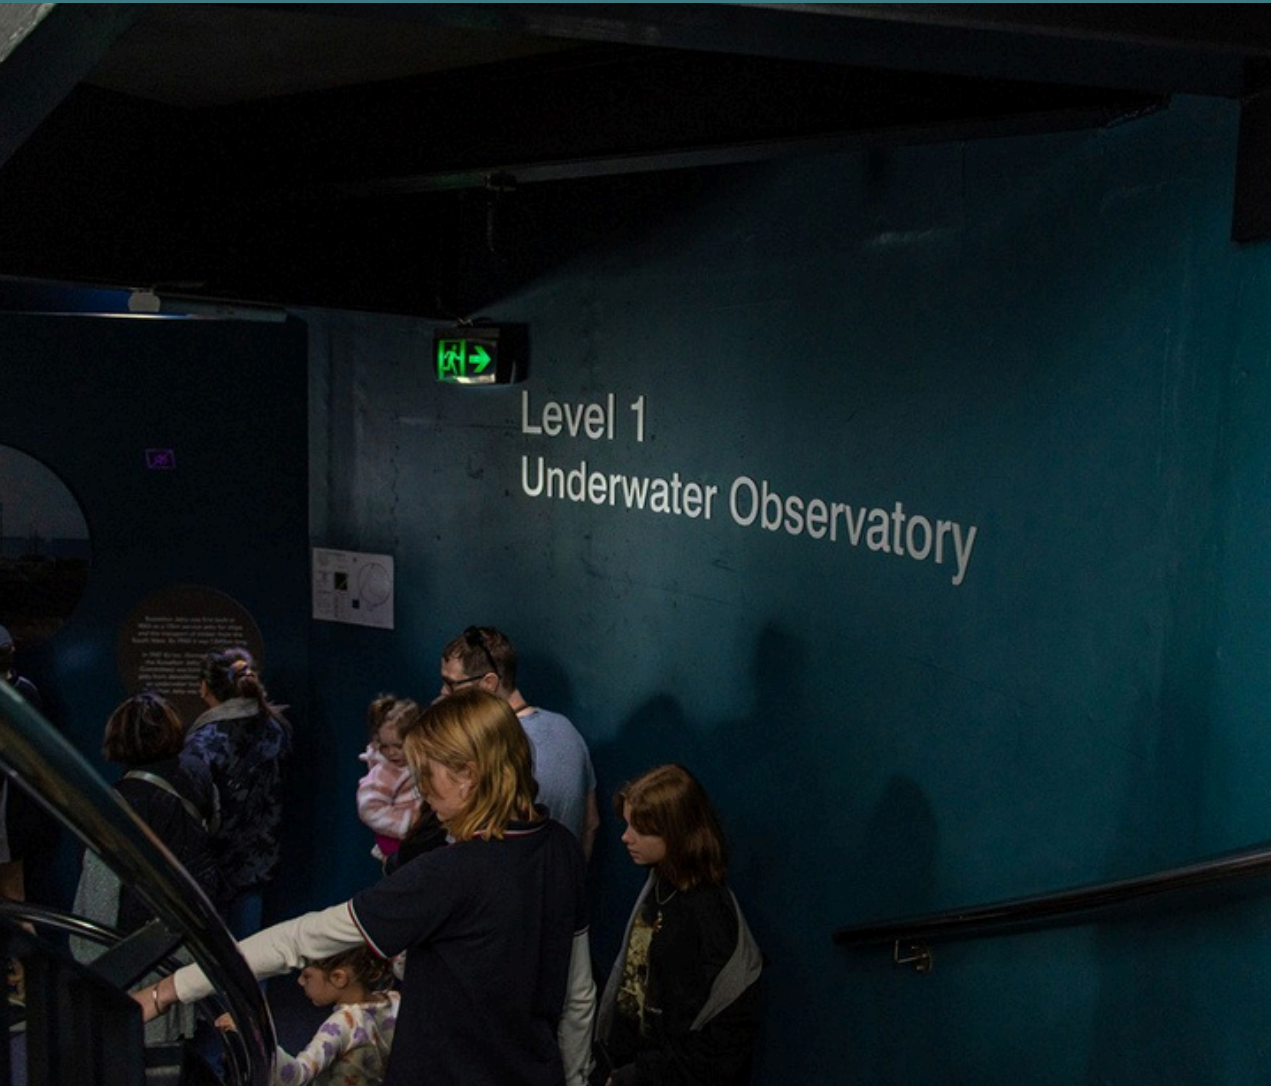

There might be lots of other people on the tour.

I will try to talk quietly and stay with my family, friends and carer.

# Underwater Observatory

We will follow the guide  
down the stairs.

We will stop and listen at  
the different platforms  
as they tell us about  
what we can see at each  
level.

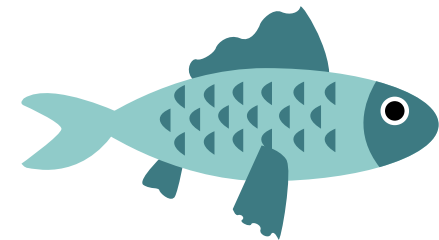

# Underwater Observatory

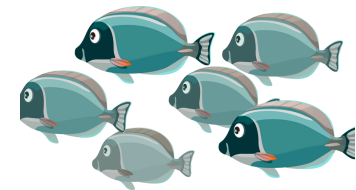

I will make sure to talk quietly and not touch or bang on the big windows so that I don't scare the fish away.

# Underwater Observatory

Once we are at the sea floor I will have time to look at all of the different levels again.

I can also ask the guide questions.

# Going home

Visiting new places can  
be exciting.

I am proud of myself for  
going to BusseLton Jetty.

Maybe I will visit again  
one day.
